## Using Boxoft All to AMR

Boxoft All to AMR can be started either by launching the application via a desktop shortcut, or directly from within Windows/Windows Explorer.

When you start the program, you will be presented with the primary screen from which all actions are taken.

## Using Boxoft All to AMR in command line

Boxoft All to AMR can be used in command line also.

### Usage:

### Boxoft All To Amr Converter Pro Command Line Usage:

AllToAmrCmd <Input Filename> <Output filename>

#### Parameters

<Input Filename>: Input filename.

<Output filename>: Output filename.

#### Examples:

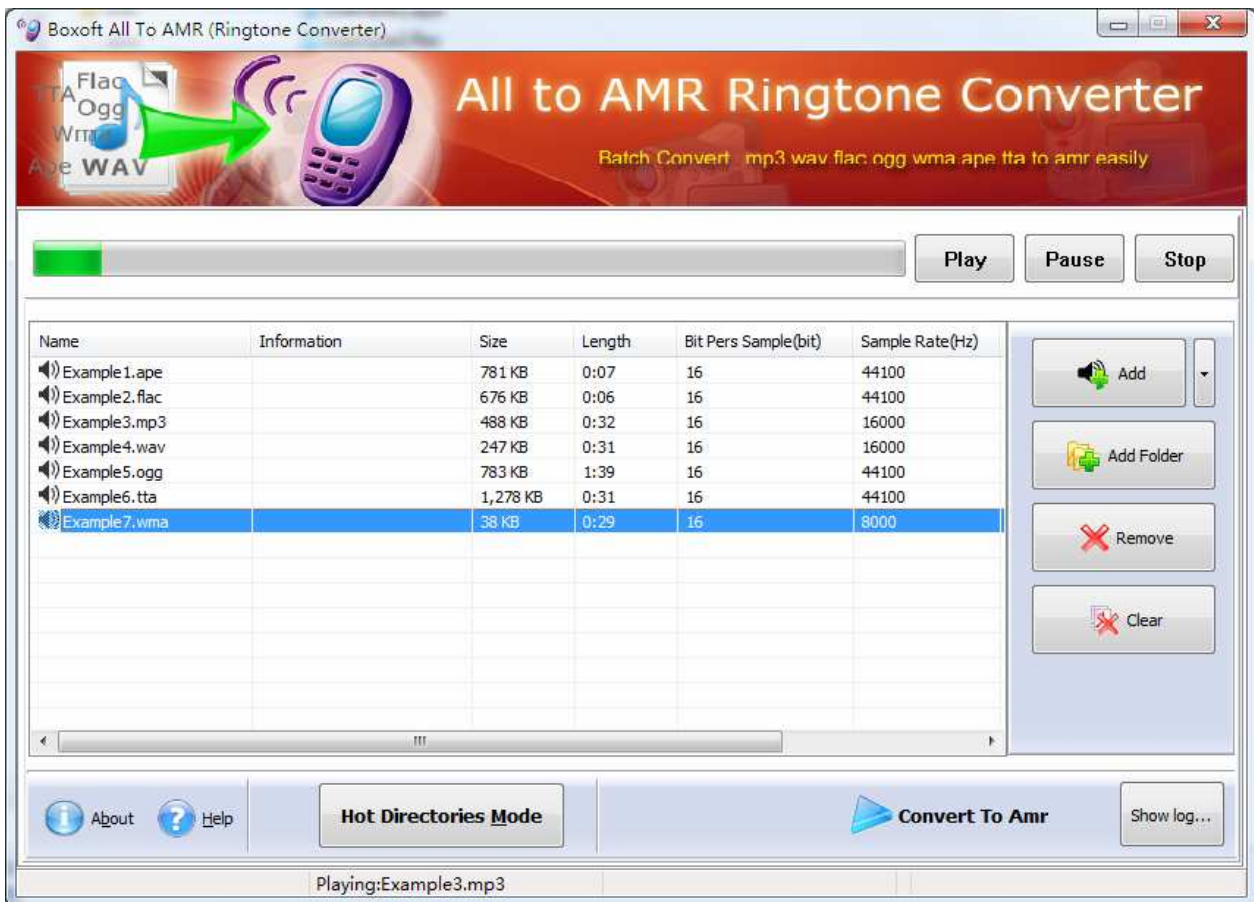

```
AllToAmrCmd "D:\in\sample1.mp3" "-d:\out1.amr"
```

```
AllToAmrCmd "D:\in\sample1.flac" "-d:\out2.amr"
```

```
AllToAmrCmd "D:\in\sample1.ape" "-d:\out2.mar"
```

### Batch Convert Mode

Select the option **Batch Convert Mode** and push the button **Next >**, a Batch Convert window will be opened.

## Selecting Files

Clicking the **Add** icon  then will open the standard file browse and select window. From that window you can navigate to the folder and find the files you want to add to the list of audio files to be worked.

Alternatively, if you are using Windows Explorer to locate files, you have the convenience of being able to 'drag and drop' files into the document window.

Boxoft All to AMR even allows you to select all files in a particular directory/folder by using the **Add Folder**  button! Adding a directory also supports sub-folders.

Each added wav file is displayed in the document list window. You can listen any of the wav files in the window by 'double-clicking' them.

You can click the **Remove** icon  to remove selected files in list or you can clear all Docs by clicking the **Clear** icon

### Convert

Click the **Convert icon** to convert all of audio file (.mp3 .wav .flac .ogg .wma .ape .tta) in the audio file list windows to AMR format and save the resultant file to a directory which you selected.

### Ending Your Session

When you have completed your work, choose the **File** option and select **Exit** from the dropdown list.
